Author Index of Volume 35

Issue No. 1 of this Volume contains abstracts of papers presented at the International Symposium to Mark the Centenary of the Isolation of Fluorine, held in Paris (F), August 25 - 29, 1986. For its Author Index see *J. Fluorine Chem., 35* (1987) 263.

Subject Index of Volume 35

Acetones
  reaction of sulphur tetrafluoride with 1,3-dihaloacetones; fluoroalkylation of benzene as evidence of participation of fluorocarbocations in the reaction, 643
Acetyl fluoride
  electrochemical fluorination of, 557
Alkali metal
  elegant direct route for preparation of pyridinium, ammonium and alkali metal hexafluorotitanates(IV), 411
Alkaline hydrolysis
  and synthesis of (pentafluoroethyl)-imidazoles, 437
Alkoxylation
  fluoro-, and fluoroalkylation; reactions of fluoroalkyl iodides with some nucleophiles by $S_{RN}1$ mechanism, 343
Alkylation
  fluoro-:
    of benzene as evidence of participation of fluorocarbocations in the reaction of sulphur tetrafluoride with 1,3-dihaloacetones, 643
    and fluoroalkoxylation; reactions of fluoroalkyl iodides with some nucleophiles by $S_{RN}1$ mechanism, 343
Ammonium compounds
  elegant direct route for preparation of pyridinium, ammonium and alkali metal hexafluorotitanates(IV), 411
  synthesis of monofluoroammonium salts $NH_3F^+HF_2^-\cdot nHF$, $-SbF_6^-$, $-AsF_6^-$, $-BF_4^-$, 307
Angiotensin
  synthetic approach to F-analogues of, converting enzyme inhibitors, 467
Anilides
  β-keto carboxylic acid; reaction of trifluoromethanesulphenyl chloride with enamines of, 317
Anthelminthics
  synthesis and ^{13}C NMR spectroscopic properties of (fluoro- and iodoanilino)ethenetricarbonitriles, 455
Antimony compounds
  existence of $CeF_4O\cdot SbF_5$ adduct, 531
  synthesis of monofluoroammonium salts $NH_3F^+HF_2^-\cdot nHF$, $-SbF_6^-$, $-AsF_6^-$, $-BF_4^-$, 307
Arsenic compounds
  synthesis of monofluoroammonium salts $NH_3F^+HF_2^-\cdot nHF$, $-SbF_6^-$, $-AsF_6^-$, $-BF_4^-$, 307

Benzene
  photoelectron spectroscopy of monosubstituted benzenes and 4H-tetrafluorobenzenes; effects of introduction of fluorine in paraposition and symmetry of highest occupied π-levels, 627
  preparation and some reactions of 2,3,5,6-tetrafluorobenzenesulphenyl chloride, 489
  reaction of sulphur tetrafluoride with 1,3-dihaloacetones; fluoroalkylation of benzene as evidence of participation of fluorocarbocations in the reaction, 643
  regiospecific synthesis of aromatic compounds via organometallic intermediates; substituted perfluoroalkylether benzenes, 571
Boron compounds
  synthesis of monofluoroammonium salts $NH_3F^+HF_2^-\cdot nHF$, $-SbF_6^-$, $-AsF_6^-$, $-BF_4^-$, 307
Bromides
  stereospecific preparation of fluorinated vinyl zinc reagents from polyfluorinated vinyl iodides or bromides and zinc metal, 415
Butyrolactones
  optically active β-keto-γ-; synthesis of, having a trifluoromethyl group, 287

Cadmium compounds
  reactions of bis(perfluoroorgano)tellurium compounds $(R_f)_2Te$ (R_f = CF_3, C_6F_5) with dialkylcadmium and zinc compounds R_2M (R = CH_3, C_2H_5; M = Zn, Cd), 267
Caesium compounds
  selective fluorination of substituted

© Elsevier Sequoia/Printed in The Netherlands

methanols with methanesulphonyl fluoride and caesium fluoride as modified with crown ethers, 677
Carboline
1-trifluoromethyl-β-; facile synthesis of, 685
Carbon
^{17}O and ^{13}C NMR study of polyfluorinated carbonyl compounds, 359
synthesis and ^{13}C NMR spectroscopic properties of (fluoro- and iodoanilino)ethenetricarbonitriles; anthelminthics, 455
Carbonyl compounds
polyfluorinated; ^{17}O and ^{13}C NMR study of, 359
Carboxylic acid anilides
β-keto; reaction of trifluoromethanesulphenyl chloride with enamines of, 317
Catalysis
phase-transfer; synthesis of ethers and fluorinated allylic thioethers by, 399
by potassium acid salt; reaction of methacrylic acid with fluorinated epoxide, 497
Cerium compounds
existence of $CeF_4O \cdot SbF_5$ adduct, 531
Chlorine
effects of fluorine substitution on ^{35}Cl NQR spectra of fluoroaromatic compounds containing element–chlorine bonds, 427
Chlorine compounds
chemistry of sulphur halides; dichlorofluoro-trifluoromethylsulphurane CF_3SCl_2F, 393
fluorination of 2,4,5-trichloro-6-methylpyrimidine; experimental study and CNDO/2 calculation, 373
preparation and some reactions of 2,3,5,6-tetrafluorobenzenesulphenyl chloride, 489
reaction of 1,2-dichloroiodotrifluoroethane with Zn, 421
reaction of trifluoromethanesulphenyl chloride with enamines of β-keto carboxylic acid anilides, 317

Enamines
reaction of trifluoromethanesulphenyl chloride with, of β-keto carboxylic acid anilides, 317
Enzyme inhibitors
synthetic approach to F-analogues of angiotensin converting, 467
Epoxide
fluorinated; reaction of methacrylic acid with; catalysis by potassium acid salt, 497
Esters
convenient synthesis of perfluoro- and polyfluoroacetylenic thiolesters, 513
Ethers
crown; selective fluorination of substituted methanols with methanesulphonyl fluoride and caesium fluoride as modified with, 677
and fluorinated allylic thioethers; synthesis of, by phase-transfer catalysis, 399
regiospecific synthesis of aromatic compounds via organometallic intermediates; substituted perfluoroalkylether benzenes, 571
synthetic utilization of methyl 2-(F-methyl)-2-hydryl-F-propyl ether; simple one-pot preparation and derivatization of 2-alkylthio-5-(F-methyl)-6-fluoro-3,4-dihydro-4-(3H)-pyrimidinones, 275

Fluorides

Electrochemical fluorination of acetyl fluoride, 557
Existence of $CeF_4O \cdot SbF_5$ adduct, 531
Preparation and electrochemical perfluorination (ECPF) of 1-propanesulphonyl fluoride and 1,3-propanedisulphonyl difluoride, 329
Preparation of oxide fluorides and oxofluorometallates of transition metals by thermal decomposition of fluoroperoxo species, 669
Selective fluorination of substituted methanols with methanesulphonyl fluoride and caesium fluoride as modified with crown ethers, 677
Self-association in HOF and HNF_2; which atoms are better proton acceptors, F, O or N?, 621

di-

Preparation and electrochemical perfluorination (ECPF) of 1-propanesulphonyl fluoride and 1,3-propanedisulphonyl difluoride, 329

tetra-

Reaction of sulphur tetrafluoride with 1,3-dihaloacetones; fluoroalkylation of benzene as evidence of participation of fluorocarbocations in the reaction, 643

Fluorination

Electrochemical, of acetyl fluoride, 557

Preparation and electrochemical perfluorination (ECPF) of 1-propanesulphonyl fluoride and 1,3-propanedisulphonyl difluoride, 329

Selective, of substituted methanols with methanesulphonyl fluoride and caesium fluoride as modified with crown ethers, 677

Of 2,4,5-trichloro-6-methylpyrimidine; experimental study and CNDO/2 calculation, 373

Fluorine

Effects of fluorine substitution on ^{35}Cl NQR spectra of fluoroaromatic compounds containing element–chlorine bonds, 427

Photoelectron spectroscopy of monosubstituted benzenes and 4H-tetrafluorobenzenes; effects of introduction of, in paraposition and symmetry of highest occupied π-levels, 627

Self-association in HOF and HNF_2; which atoms are better proton acceptors, F, O or N?, 621

Substrate dependent solvent effects in nucleophilic fluorine transfer reactions, 591

Fluoro-compounds

Anthelminthics; synthesis and ^{13}C NMR spectroscopic properties of (fluoro- and iodoanilino)ethenetricarbonitriles, 455

Chemistry of sulphur halides; dichlorofluoro-trifluoromethylsulphurane CF_3SCl_2F, 393

Effects of fluorine substitution on ^{35}Cl NQR spectra of fluoroaromatic compounds containing element–chlorine bonds, 427

Fluoroalkylation and fluoroalkoxylation studies; reactions of fluoroalkyl iodides with some nucleophiles by $S_{RN}1$ mechanism, 343

Microbial approaches to optically active sulphur-containing fluorinated compounds, 537

New pentafluorothio(SF_5) fluoropolymers, 653

Preparation of oxide fluorides and oxofluorometallates of transition metals by thermal decomposition of fluoroperoxo species, 669

Reaction of methacrylic acid with fluorinated epoxide; catalysis by potassium acid salt, 497

Reaction of sulphur tetrafluoride with 1,3-dihaloacetones; fluoroalkylation of benzene as evidence of participation of fluorocarbocations in the reaction, 643

Synthesis:

of ethers and fluorinated allylic thioethers by phase-transfer catalysis, 399

of some fluorinated putrescine analogues, 663

Synthetic approach to F-analogues of angiotensin converting enzyme inhibitors, 467

Synthetic utilization of methyl 2-(F-methyl)-2-hydryl-F-propyl ether; simple one-pot preparation and derivatization of 2-alkylthio-5-(F-methyl)-6-fluoro-3,4-dihydro-4(3H)-pyrimidinones, 275

Tris fluorosulphates of Os and Rh, 607

mono-

Synthesis:

of monofluoroammonium salts NH_3-$F^+HF_2^-\cdot nHF$, -SbF_6^-, -AsF_6^-, -BF_4^-, 307

of optically active building blocks carrying monofluoromethyl group, 477

tri-

Chemistry of sulphur halides; dichlorofluoro-trifluoromethylsulphurane CF_3SCl_2F, 393

Facile syntheses of 4-(trifluoromethyl)-L-spinacine and 4-(trifluoromethyl)-spinaceamine, 581

Reaction of 1,2-dichloroiodotrifluoroethane with Zn, 421

Reaction of trifluoromethanesulphenyl chloride with enamines of β-keto carboxylic acid anilides, 317

Synthesis:

facile, of 1-trifluoromethyl-β-carboline, 685

of functionalized trifluoromethyl-substituted formamidines, 295
of optically active β-keto-γ-butyrolactones having a trifluoromethyl group, 287

tetra-

Photoelectron spectroscopy of monosubstituted benzenes and 4H-tetrafluorobenzenes; effects of introduction of fluorine in paraposition and symmetry of highest occupied π-levels, 627
Preparation and some reactions of 2,3,5,6-tetrafluorobenzenesulphenyl chloride, 489

penta-

New pentafluorothio(SF_5)fluoropolymers, 653
Synthesis and alkaline hydrolysis of (pentafluoroethyl)imidazoles, 437

hexa-

Elegant direct route for preparation of pyridinium, ammonium and alkali metal hexafluorotitanates(IV), 411

poly-

Convenient synthesis of perfluoro- and polyfluoroacetylenic thiolesters, 513
^{17}O and ^{13}C NMR study of polyfluorinated carbonyl compounds, 359
Reactions between polyfluorodiacyl peroxides and 2-nitro-2-nitrosopropane — generation of bis(polyfluoroalkyl) nitroxides, 597
Stereospecific preparation of fluorinated vinyl zinc reagents from polyfluorinated vinyl iodides or bromides and zinc metal, 415

per-

Convenient synthesis of perfluoro- and polyfluoroacetylenic thiolesters, 513
Perfluorothioalkanoyl halides; preparation from sulphides, 523
Reactions of bis(perfluoroorgano)tellurium compounds $(R_f)_2Te$ ($R_f = CF_3$, C_6F_5) with dialkylcadmium and zinc compounds R_2M (R = CH_3, C_2H_5; M = Zn, Cd), 267
Regiospecific synthesis of aromatic compounds via organometallic intermediates; substituted perfluoroalkylether benzenes, 571

Formamidines
functionalized trifluoromethyl-substituted; synthesis of, 295

Halides
perfluorothioalkanoyl; preparation from sulphides, 523
Haloacetones
reaction of sulphur tetrafluoride with 1,3-dihaloacetones; fluoroalkylation of benzene as evidence of participation of fluorocarbocations in the reaction, 643
Hydrolysis
alkaline, and synthesis of (pentafluoroethyl)imidazoles, 437

Imidazoles
(pentafluoroethyl); synthesis and alkaline hydrolysis of, 437
Iodine compounds
anthelminthics; synthesis and ^{13}C NMR spectroscopic properties of (fluoro- and iodoanilino)ethenetricarbonitriles, 455
fluoroalkylation and fluoroalkoxylation studies; reactions of fluoroalkyl iodides with some nucleophiles by $S_{RN}1$ mechanism, 343
reaction of 1,2-dichloroiodotrifluoroethane with Zn, 421
stereospecific preparation of fluorinated vinyl zinc reagents from polyfluorinated vinyl iodides or bromides and zinc metal, 415

Lactones
synthesis of optically active β-keto-γ-butyrolactones having a trifluoromethyl group, 287

Methacrylic acid
reaction of, with fluorinated epoxide; catalysis by potassium acid salt, 497
Methanols
substituted; selective fluorination of, with methanesulphonyl fluoride and caesium fluoride as modified with crown ethers, 677

Nitrogen
self-association in HOF and HNF_2; which atoms are better proton acceptors, F, O or N?, 621

Nitroxides
reactions between polyfluorodiacyl peroxides and 2-nitro-2-nitrosopropane — generation of bis(polyfluoroalkyl)nitroxides, 597
Noble metals
tris fluorosulphates of Os and Rh, 607
Nucleophiles
fluoroalkylation and fluoroalkoxylation studies; reactions of fluoroalkyl iodides with, by $S_{RN}1$ mechanism, 343
Nucleophilic reactions
fluorine transfer; substrate dependent solvent effects in, 591

Optical activity
microbial approaches to optically active sulphur-containing fluorinated compounds, 537
synthesis of optically active building blocks carrying monofluoromethyl group, 477
synthesis of optically active β-keto-γ-butyrolactones having a trifluoromethyl group, 287
Osmium compounds
tris fluorosulphates of Os and Rh, 607
Oxygen
^{17}O and ^{13}C NMR study of polyfluorinated carbonyl compounds, 359
self-association in HOF and HNF_2; which atoms are better proton acceptors, F, O or N?, 621

Peroxides
reactions between polyfluorodiacyl peroxides and 2-nitro-2-nitrosopropane — generation of bis(polyfluoroalkyl) nitroxides, 597
Polymers
new pentafluorothio(SF_5)fluoropolymers, 653
Potassium acid salt
reaction of methacrylic acid with fluorinated epoxide; catalysis by, 497
Proton acceptors
self-association in HOF and HNF_2; which atoms are better proton acceptors, F, O or N?, 621
Putrescine analogues
some fluorinated; synthesis of, 663
Pyridinium
and ammonium and alkali metal hexafluorotitanates(IV); elegant direct route for preparation of, 411
Pyrimidine
fluorination of 2,4,5-trichloro-6-methylpyrimidine; experimental study and CNDO/2 calculation, 373
Pyrimidinones
synthetic utilization of methyl 2-(F-methyl)-2-hydryl-F-propyl ether; simple one-pot preparation and derivatization of 2-alkylthio-5-(F-methyl)-6-fluoro-3,4-dihydro-4-(3H)-pyrimidinones, 275

Rhodium compounds
tris fluorosulphates of Os and Rh, 607

Solvent effects
substrate dependent, in nucleophilic fluorine transfer reactions, 591
Spectroscopy
anthelminthics; synthesis and ^{13}C NMR spectroscopic properties of (fluoro- and iodoanilino)ethenetricarbonitriles, 455
effects of fluorine substitution on ^{35}Cl NQR spectra of fluoroaromatic compounds containing element–chlorine bonds, 427
^{17}O and ^{13}C NMR study of polyfluorinated carbonyl compounds, 359
photoelectron, of monosubstituted benzenes and 4H-tetrafluorobenzenes; effects of introduction of fluorine in paraposition and symmetry of highest occupied π-levels, 627
Spinacine and spinaceamine
facile syntheses of 4-(trifluoromethyl)-L-spinacine and 4-(trifluoromethyl)-spinaceamine, 581
Sulphur compounds
chemistry of sulphur halides; dichlorofluoro-trifluoromethylsulphurane CF_3SCl_2F, 393
convenient synthesis of perfluoro- and polyfluoroacetylenic thiolesters, 513
microbial approaches to optically active sulphur-containing fluorinated compounds, 537
new pentafluorothio(SF_5)fluoropolymers, 653

perfluorothioalkanoyl halides; preparation from sulphides, 523
preparation and electrochemical perfluorination (ECPF) of 1-propanesulphonyl fluoride and 1,3-propanedisulphonyl difluoride, 329
preparation and some reactions of 2,3,5,6-tetrafluorobenzenesulphenyl chloride, 489
reaction of sulphur tetrafluoride with 1,3-dihaloacetones; fluoroalkylation of benzene as evidence of participation of fluorocarbocations in the reaction, 643
reaction of trifluoromethanesulphenyl chloride with enamines of β-keto carboxylic acid anilides, 317
selective fluorination of substituted methanols with methanesulphonyl fluoride and caesium fluoride as modified with crown ethers, 677
synthesis of ethers and fluorinated allylic thioethers by phase-transfer catalysis, 399
synthetic utilization of methyl 2-(F-methyl)-2-hydryl-F-propyl ether; simple one-pot preparation and derivatization of 2-alkylthio-5-(F-methyl)-6-fluoro-3,4-dihydro-4-(3H)-pyrimidinones, 275
tris fluorosulphates of Os and Rh, 607

Tellurium compounds
reactions of bis(perfluoroorgano)tellurium compounds $(R_f)_2Te$ (R_f = CF_3, C_6F_5) with dialkylcadmium and zinc compounds R_2M (R = CH_3, C_2H_5; M = Zn, Cd), 267
Thermal decomposition
preparation of oxide fluorides and oxofluorometallates of transition metals by, of fluoroperoxo species, 669
Thioethers
fluorinated allylic, and ethers; synthesis of, by phase-transfer catalysis, 399
Thiolesters
perfluoro- and polyfluoroacetylenic; convenient synthesis of, 513
Titanates
elegant direct route for preparation of pyridinium, ammonium and alkali metal hexafluorotitanates(IV), 411
Transition metals
preparation of oxide fluorides and oxofluorometallates of, by thermal decomposition of fluoroperoxo species, 669

Zinc
reaction of 1,2-dichloroiodotrifluoroethane with, 421
stereospecific preparation of fluorinated vinyl zinc reagents from polyfluorinated vinyl iodides or bromides and zinc metal, 415
Zinc compounds
reactions of bis(perfluoroorgano)tellurium compounds $(R_f)_2Te$ (R_f = CF_3, C_6F_5) with dialkylcadmium and zinc compounds R_2M (R = CH_3, C_2H_5; M = Zn, Cd), 267
